📞 217.710.9937
📍 St. Louis, MO.

I am a driven and innovative web developer with five years experience creating user-friendly web interfaces, implementing Content Management Systems, and delighting customers with dazzling E-Commerce solutions, known for my problem-solving abilities and commitment and continuous learning.

SKILLS

JavaScript	NodeJS
ReactJS	NextJS
Svelte	CSS/SASS
Tailwind CSS	Responsive Design
UX/UI	MongoDB
REST APIs	PostgreSQL
Agile	Git

Front-end Developer

Anheuser-Busch - St. Louis, MO.

June 2019 - Present

Development of user-facing features using modern web technologies such as Node.js, Svelte, SASS, and ReactJS to create intuitive interfaces for AB-specific products. Collaborated with designers and worked with brands like Budweiser, Michelob Ultra, and Stella to develop engaging websites and custom applications.

Front-end Developer

Upland Second Street- St. Louis, MO.

Nov. 2019 - Nov. 2020

Development of multiple customer creation promotion platforms using Ember.js and CSS. I focused on enhancing user engagement and streamlining the promotion process while collaborating with cross-functional teams to meet business requirements.

Web Master

375th AMW Public Affairs - Scott AFB, IL.

May 2011 - Oct. 2016

Management of the official Scott AFB website using Armed Forces Public Information Management System CMS, HTML, CSS, and JavaScript. Achieved recognition as the Air Force Website of the Year in 2011 for outstanding design and functionality.

EDUCATION

Certificate: LC101

LaunchCode - Seattle, WA.

May 2016 - Nov. 2016

Certificate: Digital Multimedia

Defense Information School - Fort Meade, MA.

May 2015 - July 2015

ACCOMPLISHMENTS

- Lead the transition of multiple newly acquired brand sites to the Svelte tech stack.
- Learned multiple languages and systems, such as AEM, Drupal, Ember.js, Hugo, Svelte, Liquid, and React.js to help team across multiple platforms.
- Implemented an E-Commerce solution lowering the abandoned cart rate to 60% - 10% lower than the average.
